EDUCATION

- **Tecnológico Nacional de México** Cd. Guzmán, Jalisco
Master of Science in Computer Science Aug 2020 – Jun 2022
- **Tecnológico Nacional de México** Colima, Colima
Bachelor of Engineering in Mechatronic Aug 2015 – July 2020

EXPERIENCE

- **Software Developer in Test (Schaeffler-Vitesco)** Guadalajara, Jalisco
R&D Testing Development Engineer Apr 2022 – Present
 - **Trace32/TLP Experience:** Experience using Trace32 for debugging and testing embedded systems.
 - **HIL Testing:** Experience using Hardware in the Loop testing for embedded systems. Skills in software testing, test design, test execution, and test management.
 - **Polarion Siemens Software:** Experience using Polarion for test management and traceability.
 - **Advanced Python Programming:** Internal Automation frameworks, Matplotlib, Pandas, Numpy, Drivers communication.
 - **Eclipse IDE, VScode, Git, GitHub:** Internal Automation frameworks, Matplotlib, Numpy, Drivers communication. VScode for Python development.
- **Bio Pappel, S.A.B de C.V.** Cd. Guzmán, Jalisco
Electronic Assistant Jan 2019 – Jan 2020
 - **PLC programming – Ligit Pro 5000:** Programmable Logic Controller, Ladder Diagram, Function Block Diagram, Structured Text.

LICENSES & CERTIFICATIONS

- **ISTQB® Foundation Level** Guadalajara, Jalisco
Brightest Issued Jan 2024
 - **Certified Tester Foundation Level:** Skills in software testing, test design, test execution, and test management. Proficient in creating and executing test cases, identifying and documenting defects.
- **Electrification Program I** Regensburg, Germany (virtual)
Vitesco Technologies Issued Jan 2023
 - **Knowledge in Electric Vehicle and BMS systems:** Physical Basics, Electrical Machines, Power Electronics, Energy Storage & Charging, System, EMC High Voltage, Control of Electrical Machines.
- **Advanced Python Programming** Guadalajara, Jalisco
TAE/CANIETI Dec 2021
 - **Knowledge in Python Programming:** Seaborn, Matplotlib, Pandas, Numpy, TensorFlow, Skit-Learn, Keras, Jupiter Notebook.
- **Embedded C - Basic** Guadalajara, Jalisco
Vitesco Technologies Jan 2019
 - **Embedded Systems, ANSI C - Basic & Extended Syntax Elements:**

PROJECTS

- **Emotional Regulation Computational Model:** Computational model for emotional regulation based on the Gross's model.
- **Powershell Installer:** C program that facilitates the Powershell installation on Windows having an enhanced customizable Powershell profile.
- **Powershell Suite Profile:** Customizable Powershell profile that includes a custom prompt, aliases, functions, and modules, that facilitates and improves the daily work.
- **Clone repository and submodules recursively:** VScode extension that allows to clone a repository and its submodules recursively using a button in the status bar.
- **Arduino Installer:** C program that facilitates the Arduino IDE installation on Windows which facilitates use the command line.
